## Industrial Fan

### **WARNING!!**

ALWAYS unplug unit for cleaning or maintenance.

ALWAYS unplug unit when not in use.

ALWAYS unplug when moving unit from one location to the next.

DO NOT use an extension cord. Plug fan into a properly rated electrical outlet.

DO NOT place foreign objects through guards into blades.

DO NOT allow unit to become wet or damp.

DO NOT use this fan with any solid state speed control device.

### **OPERATING INSTRUCTIONS:**

This unit is equipped with a speed selector switch, which allows you to select a desired amount of air delivery.

Air Circulators can be used alone or in conjunction with an air conditioner to circulate, and force cooled air into other areas.

During normal operation it is not uncommon for the motor to be warm to the touch. The motor is equipped with a thermo-protector, and will automatically de-energize the fan if it were to over heat for any reason. If this should happen immediately disconnect unit from power outlet.
